

## **Faculty web site Profile**

**Name:** Saleh M. Aloraini, BSc(PT), MSc, PhD

### **Faculty Profile:**

**Academic Title:** Assistant Professor

**Academic E-mail:** saloraini@qu.edu.sa

### **Awarded Degree:**

- BSc (Rehabilitation – Physical Therapy) College of Applied Medical Sciences – King Saud University (2006)
- MSc (Rehabilitation Research – Physiotherapy) School of Physiotherapy – Dalhousie University, Canada (2014)
- PhD (Applied Health Sciences) Faculty of Graduate Studies , University of Manitoba, Canada (2019)

### **Academic assignment:**

- Research Methodology and Technology (HLTH 548)
- Clinical practice In Musculoskeletal (EDPT 452)
- Introduction to Prosthetics and Orthotics (PROS 537)
- Principles of Administration in Medical Fields (HLTH 443)
- Evidence-Based Practice (HLTH 545)

### **Research interest:**

My main research interests are understanding the biomechanical changes and the postural differences among individuals who suffer from movement impairments and how do different rehabilitation approaches and adaptive devices affect their recovery. Furthermore, I am interested in studying new technologies for assessing individuals with motor impairments and how can new devices aide the rehabilitation process. In addition, I am interested in knowledge translation and how to facilitate the application of evidence-based practice and guidelines into real-world practice. I often utilize the theoretical and applied background in perceptual motor behavior to pursue my research interests.

### **Administrative assignment:**

Supervisor - Alumni and Professional Development Unit
